PROFESSIONAL SUMMARY

Computer Science graduate with a strong interest in Software Development and Problem Solving. Seeking an entry-level opportunity to apply my programming skills, learn new technologies, and contribute to real-world software projects.

EDUCATION

Helapuri Institute of Technology and Science, Eluru **CGPA: 7.3** **2022–2026**
Bachelor of Technology (B.Tech) – Computer Science and Engineering

Government Junior College, Kukunoor **CGPA: 7.2** **2020–2022**
Intermediate

Sri Mythili High School, Bhadrachalam **CGPA: 9.5** **2020**
SSC

SKILLS

Programming: Python, Data Structures
Web: HTML, CSS
Database: SQL
Tools: Git, GitHub, Jupyter Notebook, Google Colab, Anaconda
Machine Learning: Machine Learning, Genetic Algorithm
Core Concepts: Object-Oriented Programming, File Handling, JSON, Exception Handling
Soft Skills: Problem Solving, Communication, Teamwork, Adaptability

PROJECTS

Online Exam Management System **Aug 2026**

Tech Stack: Python, Object-Oriented Programming, JSON, File Handling, Exception Handling

- Developed a Python-based Online Exam Management System to manage online examinations efficiently.
- Implemented student registration, login, exam participation, question management, and result processing.
- Applied Object-Oriented Programming concepts to organize application components.
- Used JSON and File Handling for student, question, exam, and result data.

GitHub Repository: `https://github.com/swathivara28/Online-Exam-Management--System`

Live Demo Video: `https://drive.google.com/file/d/193Sk-KNxyBRRYvdwtoTnIfzsbH51KL-U/view?usp=sharing`

Intelligent Decision Driving Strategy for Autonomous Vehicles **Apr 2026**

Tech Stack: Python, Machine Learning, Genetic Algorithm, Anaconda, Google Colab, Jupyter Notebook

- Developed a Machine Learning-based approach for autonomous vehicle decision-making.
- Implemented intelligent lane-change, speed optimization, and decision support strategies.
- Evaluated safer and more efficient driving decisions using Machine Learning techniques.
- Applied Python-based data analysis and model evaluation for autonomous driving.

GitHub Repository: `https://github.com/moulyameruva6-collab/Intelligent-Decision-Driving-Stratergy`

INTERNSHIP

Python Programming and Applications – CSC Academy **Apr 2025–Jun 2025**

- Learned Python fundamentals, Object-Oriented Programming, Data Structures, and Problem Solving.
- Worked with File Handling, JSON, and Exception Handling through practical exercises.
- Built small Python applications to strengthen coding and debugging skills.

CERTIFICATES

Junior Software Developer – DDU-GKY, Rampro Solutions **Oct 2025–Dec 2025**

- Gained practical experience in Software Development, Programming Concepts, and Problem Solving.
- Strengthened programming and application development skills through hands-on projects.

Java Programming – CSC Academy **Apr 2024–Jun 2024**

- Learned Java fundamentals, OOP, Inheritance, and Polymorphism.
- Practiced Java Collections and Exception Handling through programming exercises.

Python Programming – CSC Academy **Apr 2024–Jun 2024**

- Learned Python fundamentals, OOP, Data Structures, and Problem Solving.
- Practiced File Handling, JSON, Exception Handling, and Python application development.

LANGUAGES

English, Telugu
